

Environmental Solutions

WHY Environmental Solutions ES?

We provide trouble-free solutions so that customers can maximize the value of their assets.

WHAT WE STAND FOR

Service excellence, applied technology, customer focus, safety, community service, and integrity.

THE ES DIFFERENCE

Training our people to the highest standards, developing unique solutions, being the safest company in the industry, and working closely with our customers.

WE DELIVER, NO EXCUSES

Highly-trained field specialists, fit-for-purpose products, oilfield expertise, solids control services, waste management solutions, first-rate logistics, and infrastructure.

OVER 17+ YEARS of Experience

- Environmental Solutions has a history of over **17 years of Oilfield Services Experience** in providing solutions for drilling needs and offers solutions and services in **Drilling & Completion Fluids, Solids Control & Waste Management, Wellbore Cleanup, Transportation Services, and Technical Testing & Analysis Services.**

GLOBAL SOLUTIONS & SERVICES

Drilling & Completion Fluids

- Drilling & Completion Fluid Systems
- Experienced Fluid Engineers
- Engineering Software
- Fluid Quality Control Process
- Completion Equipment

Solids Control & Drilling Waste Management

- Full suite of equipment
- Management of the Cuttings Disposal
- Management of Fluid Recycling
- Management of Contaminated Water
- Waste Minimization Practices

Technical Testing & Analysis

- Laboratory Services

Our Experience

ES – Egypt - Experience

🌿 Solids Control & Drilling Waste Management Services Clients

🌿 Shale Shaker Screens Customers

Environmental Solutions-A QMAX Company

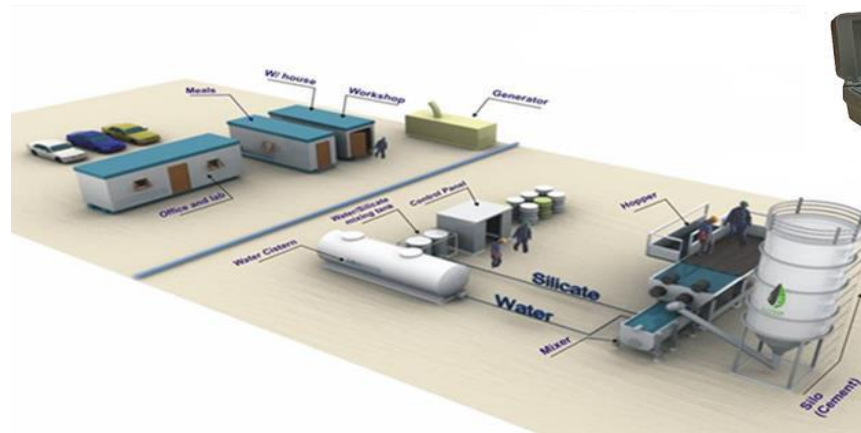

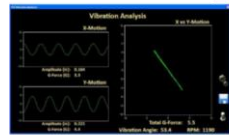

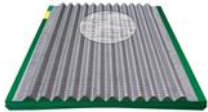

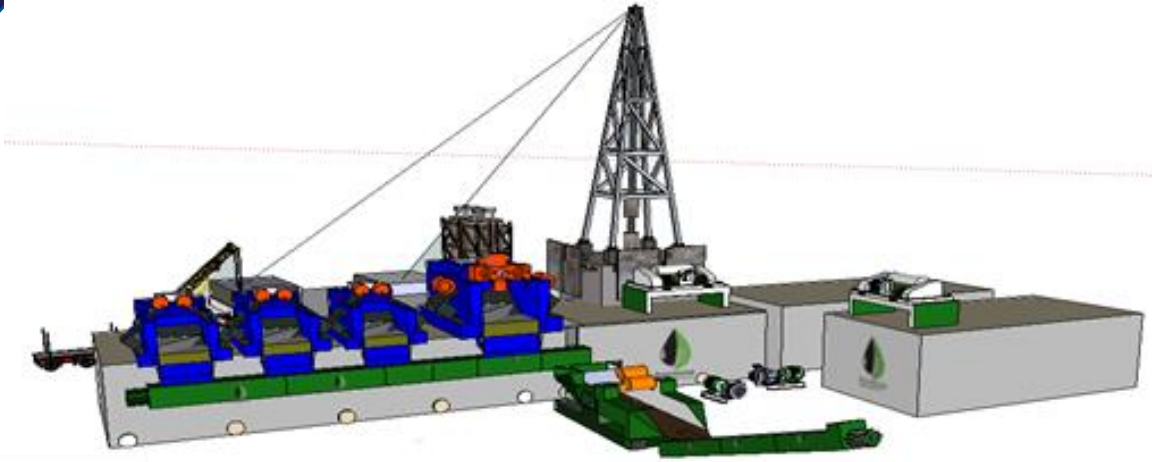

Environmental Solutions for Petroleum Services-Free Zone-S.A.E , founded in 2007 under the laws of Egypt in accordance with General Authority of Law # 8 of 97 with registry Number 1533.

ES with its professional and long experienced management team has proved its in-depth technical capabilities and supreme quality of providing the services by delivering reliable solutions and services that are based on adding value and cost efficiency to its customers.

The company is operating through its two main branches, one in **Egypt** and the other in **Algeria**.

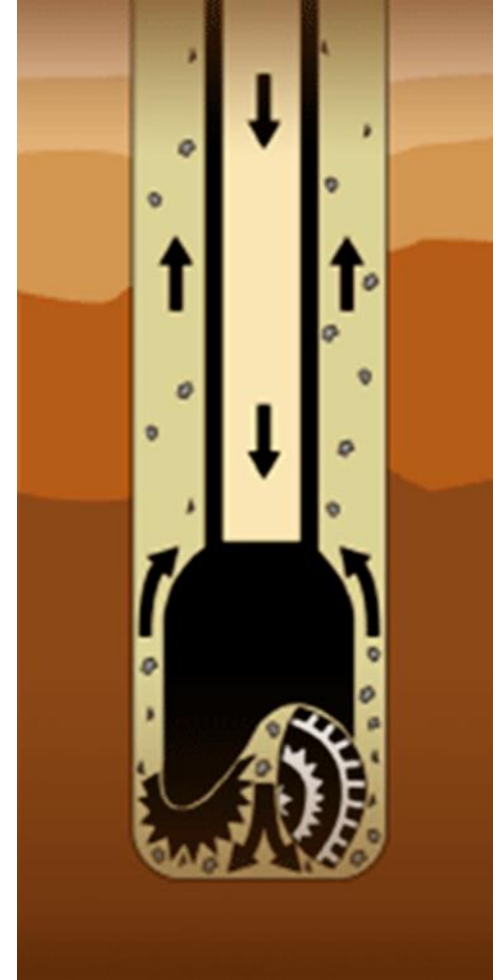

SCOPE OF WORK

SCOPE OF WORK

Drilling & Completion Fluids

- Provide Drilling & Completion Fluid Systems
- Mud Engineering Services
- Engineering Software
- Fluid Quality Control Process
- Completion Equipment
- Supply Drilling Fluids Chemical

SCOPE OF WORK

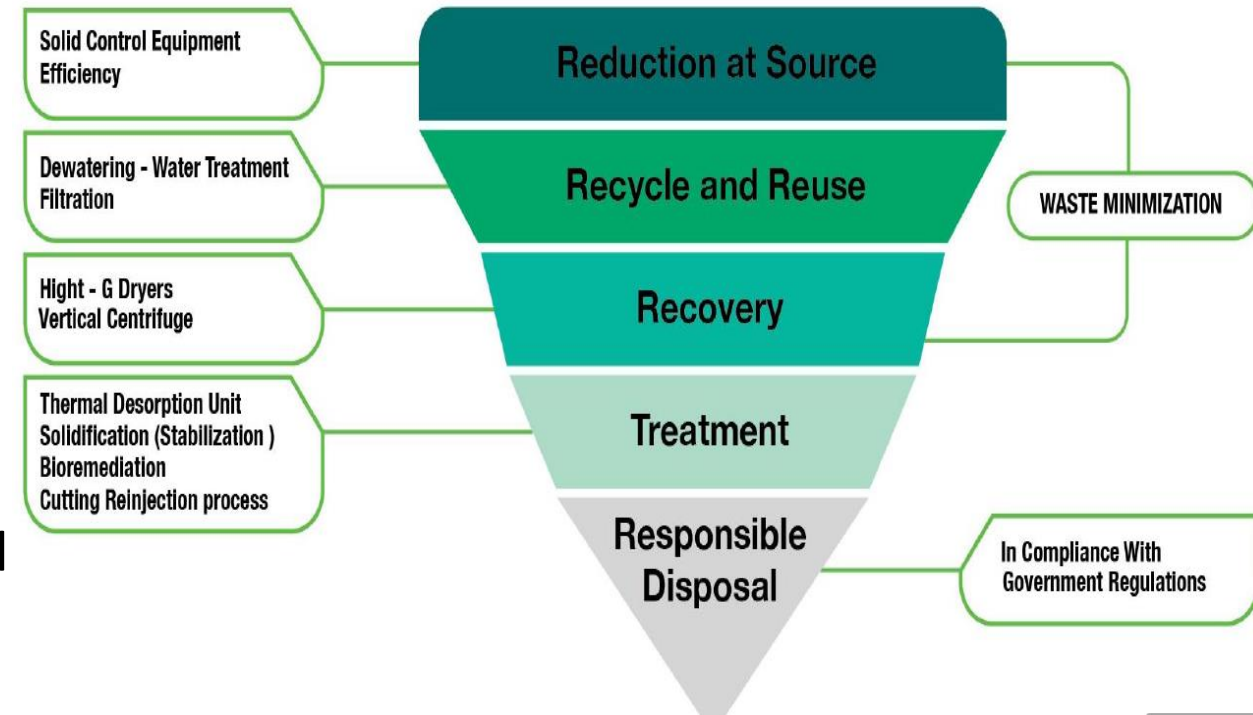

Solids Control Services

- One of our Core Business is to sell all types of Solid Control equipment and Centrifuges including shale shakers, screens, desanders, desilters, mud cleaners and centrifuges. For this, ES Preferential approach is to work with its customer either drilling contractor or an operator early enough to understand its needs and guarantee selecting the most economical and functional equipment that achieves the proper Return/Value equation.
 - In addition, provides all the after sale services, such as commissioning, installing, and spare parts stocking in addition to the maintenance, repair and replacement of the equipment.

SCOPE OF WORK

Waste Management Solutions

- Provides Waste Management Services especially for the drilling and production operations. The first step in our approach is to provide the customer with our recommendations on the most economical plan to cover its technical needs according to the country environmental laws.
- Our wide experience in providing our clients with various solutions covering all the areas in the triangle, assuring a high quality service and tremendous economical value.

SCOPE OF WORK

- This to include optimizing the Solid Control equipment performance through a structured process, all type of Water Base Mud related processes such Dewatering, Filtration, and Recycling, drying process for the Oil Base Mud (OBM) either Vertical Centrifuge or High G dryers and Finally all types of treatment Techniques and methods such as :
 - ✓ Drying with Vertical Centrifuge.
 - ✓ Drying with Hi-G Dryer.
 - ✓ Wastewater treatment plants for water recycling at rig site.
 - ✓ Thermal Desorption.
 - ✓ Drilling Cuttings Solidification/Stabilization.
 - ✓ Cutting skips and Cutting boxes.

Customer Appreciation

Dear Environmental Solutions A Q-Max Company,

Let me express all my gratitude and appreciation to the job performed by your team on board. They have all showed commitment and dedication to the job, contributing to the excellent results made so far in the handling of cuttings.

I want to highlight the extra efforts made when, during the bad weather, was not possible to handle the cutting skips. All the crew made his best to avoid stopping the operations.

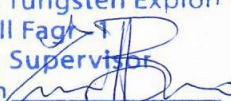

As you know, everyone on board is important, and we all work for the same result as a team.

My gratitude goes especially to those who spent many days on board, far from their families, but focused every day on the job.

The crew has always participated to the VOC cards system on board, and showed an increasing awareness on HSE.

Please pass this message to your crew, and raise the attention during the drilling of the reservoir section.

Thanks and regards,

Rig Tungsten Explor.

Appreciation Letter

By this letter, Petrobel thank and fully recommend Environmental Solutions company for the services of Solids Control performed on Well BLS-16 in the area of Belayim, South Sinai Fields, Egypt.

The Vertical Centrifuge Systems of the Solid Control Equipment provided by the Environmental Solutions Company showed great performance and High Separation Efficiency with an increase in the mud return barrels while drilling, allowing smooth drilling operations.

We also appreciate the professionalism and the efforts of your team that were displayed on the rig site. The high quality of technical competence was accompanied with a high commitment to the HSE procedures and principles.

Environmental Solution Appreciation Letter

TO WHOME SO EVER IT MAY CONCERN

On behalf of ADMARINE III team, we want to express our appreciation for the great effort and time you dedicated to get your job completed without safety compromising or adverse contamination to the environment and the facility as well. We all admired your ingenuity in creating that outstanding prompt action to close all the finding raised during the rig up process. We were personally impressed with the way you kept your staff motivated and focused to close all the open items and run your equipment safe, even in the face of several obstacles.

Thank you for giving your best. May you enjoy this type of success in all your endeavors.

Dear Eng. Ahmed Emam,
On behalf of Mediterra Energy Company, we would like to appreciate the efforts and performance of ES-Qmax solid control System. Also, we want to thank you for the excellent service from ES-Qmax team who helped Mediterra to accomplish sustainable performance and high quality jobs, especially during the operations performed on the wells Asal-34 and Sudr-49.

Also, we would like to recognize and appreciate the performance of ES-Qmax team:
1- Eng. Abbas Elasadek (Operation Supervisor)
2- Eng. Mohamed Hamedou (Workshop supervisor)

For their efforts and commitment with Mediterra. They are fully supporting Mediterra operations and they successfully implemented all technical requirements requested by Mediterra.

Mediterra is encouraging the continuity of such excellent performance.

Dear Mr Doudit,

By this letter REPSOL thank and fully recommend your company for the services provided during the waste management campaign performed on Regame and Gassi chargei fields. Excellent services on inclusion, logistic and also safety sides. We also appreciate the professionalism, the reactivity and the excellent reporting from your supervisors in charge of the project.

The rehabilitation campaign has started in August 2008 and ended in March 2009. Operations were performed in due time and without any accident or incident. Five sites were treated, 18 800 m3 of waste were processed (OBM+ WBM) Over 3500 tons of cement and 130 m3 of sodium silicate were brought down to our locations. Equipments were moved over 3000 kilometers without any incident.

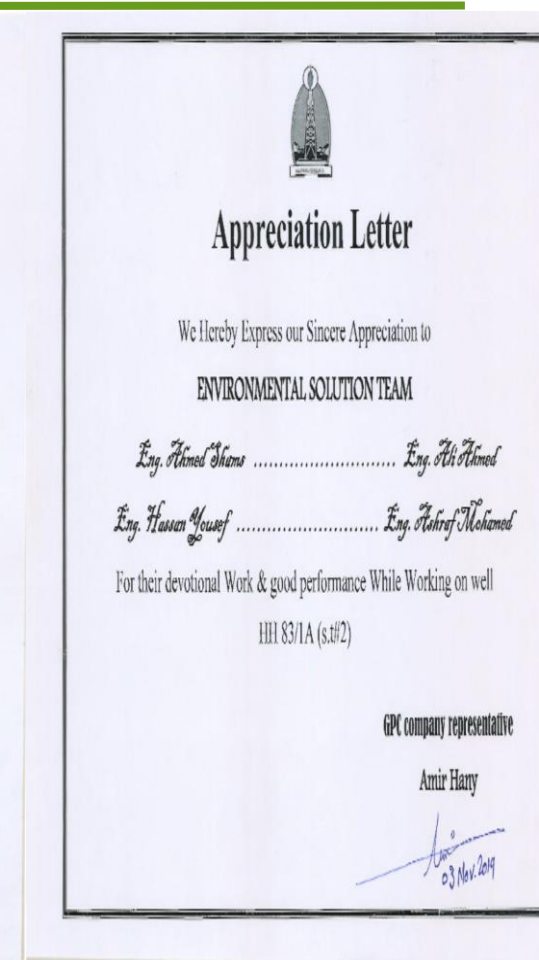

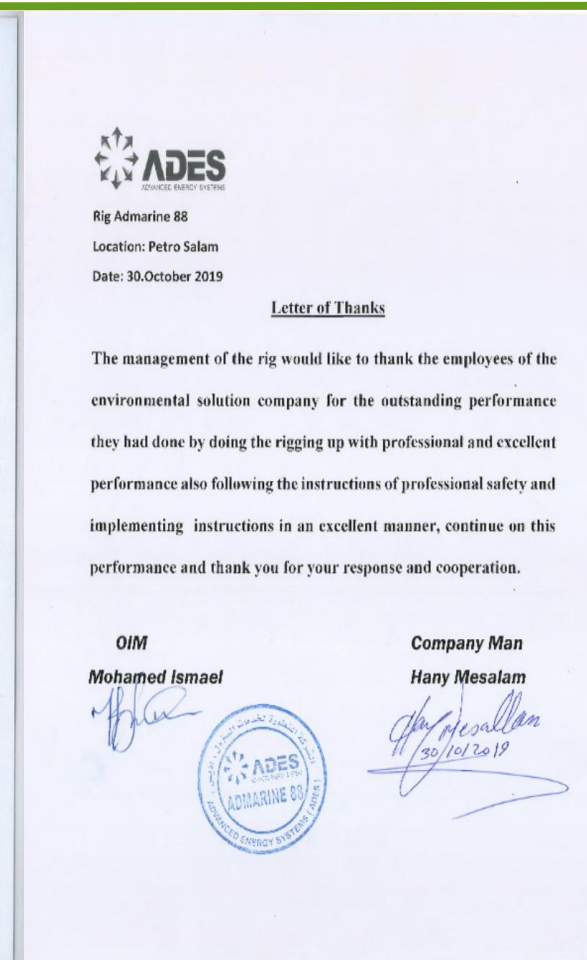

Best regards
